

**PORSCHE COILOVER KITS by Sachs starting from.....\$2,565.00**

This Sachs Performance Coilover kit offers outstanding handling improvements and easy adjustability. Compression and Rebound can be altered by simply turning one knob. This ensures quick and convenient adjustability without the use of tools or even the need to lift the car off the ground! We also carry these coilover kits for Audi, BMW, Volkswagen and other vehicles.

**SACHS Performance Clutch and Flywheel upgrades starting from.....\$372.00**

Weight reductions in rotating mass in the drive train are effectively worth more than their weight in reducing inertial power loss. We are proud to offer Sachs high-performance clutches, race clutch applications and lightweight, single-mass steel flywheels. From street upgrades to custom race applications, we have what you are looking for.

**TC KLINE PRO STUDS.....\$259.00**

The very best available! If you change your wheels for autocross or track, you should invest in a set of these studs. Specially machined rounded ends prevent cross threading. Made from degassed, tumble blasted 4140 aircraft steel and coated with baked on dry film lubricant.

Available in 3 lengths:

**SHORT** – 14mm x 42mm (accommodates up to 8 mm spacer)

**MEDIUM** – 14mm x 51mm (accommodates up to 15 mm spacer)

**LONG** – 14mm x 60mm (accommodates up to 25 mm spacer)

**FORGELINE FORGED ALLOY WHEELS (EV1R SHOWN).....\$4,400.00**

*Special price for DE Students and Instructors only (mention code TCKREV1R).....\$3,400.00*

Designed for strength, performance and style these lightweight wheels offer everything you need for your car! This special pricing is valid on two wheels – ZX3R, EV1R, with single color powder coating. Other options are available at an additional price. Special offer valid for a limited time only.
